Safe Harbor Statements

Under the Private Securities Litigation Reform Act of 1995

This presentation contains, in addition to historical information, "forward-looking statements" within the meaning of the "safe harbor" provisions of the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements, including statements under "Fourth Quarter 2017 Guidance", "CapEx Summary" and the statements contained in the quotes of co-Chief Executive Officers are based on SMIC's current assumptions, expectations and projections about future events. SMIC uses words like "believe," "anticipate," "intend," "estimate," "expect," "project," "target" and similar expressions to identify forward looking statements, although not all forward-looking statements contain these words. These forward-looking statements are necessarily estimates reflecting the best judgment of SMIC's senior management and involve significant risks, both known and unknown, uncertainties and other factors that may cause SMIC's actual performance, financial condition or results of operations to be materially different from those suggested by the forward-looking statements including, among others, risks associated with cyclicalities and market conditions in the semiconductor industry, intense competition in the semiconductor industry, SMIC's reliance on a small number of customers, timely wafer acceptance by SMIC's customers, timely introduction of new technologies, SMIC's ability to ramp new products into volume, supply and demand for semiconductor foundry services, industry overcapacity, shortages in equipment, components and raw materials, availability of manufacturing capacity, financial stability in end markets, orders or judgments from pending litigation, intensive intellectual property litigation in semiconductor industry, general economic conditions and fluctuations in currency exchange rates.

3Q17 Financial Highlights

- Revenue was \$770 million
 - Up 2.5% QoQ

[illegible]

- **Revenue** increased by 2.5% QoQ from \$751.2 million in 2Q17 to \$769.7 million in 3Q17 mainly due to an increase of wafer shipment in 3Q17.
- **R&D expenses** decreased by \$4.3 million QoQ to \$106.8 million in 3Q17, compared to \$111.2 million in 2Q17. Excluding the funding of R&D contracts from the government, R&D expenses increased by \$3.8 million QoQ to \$131.0 million in 3Q17. The change was mainly due to higher level of R&D activities in 3Q17. Funding of R&D contracts from the government was \$24.2 million in 3Q17, compared to \$16.1 million in 2Q17.
- **General and administrative expenses** decreased by 14.9% to \$46.1 million in 3Q17, compared to \$54.2 million in 2Q17. The change was mainly due to 1) less share-based compensation payment accrued in 3Q17 and 2) the reversal of allowance for doubtful debts in 3Q17.
